Dear Br.

84

I have just returned from Rochester and your letter of 14<sup>th</sup>. Yesterday your note making corrections. I herewith send you the numbers 3 each containing your correspondence. I believe I have omitted none. If I should I will make the correction. I should like to make the exchange with the three London & Scots papers your name. I will enter their names & send the papers by next steamer. What is their address? If you condescend me in the negotiation I shall be obliged. In respect to your letters to come, send them on, condensed. spicy. pithy. as you know to make them & I have no doubt they will enrich our columns & interest our readers. I hope to be in Boston in a couple of weeks & then I will say more. I am very much occupied at present - Let us know any thing of interest that occurs in your region in addition to your old world correspondence & I will make it right -

In haste

affectionately yours

W. H. Bidwell
